-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

Art Unit: 1621

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a phosphazine compound or composition obtained by reaction of a phenoxyposphazine compound having a hydroxyl group and/or a cross-linked phenoxyposphazine compound with an epoxy compound or an isocyanate compound.

Group II, claim(s) 13-22, drawn to a composition comprising a phenoxyposphazine and/or cross-linked phenoxyposphazine compound and a polyimide resin.

Group III, claim(s) 23-28, drawn to a composition or board made therefrom comprising a phenoxyposphazene compound and a polyimide resin having a carboxyl and/or hydroxyl group.

If group I is elected then applicants are required to elect one of the following subgroups:

- A. A-1 reacted with B.
- B. A-1 reacted with C.
- C. A-1 reacted with B and C.
- D. A-2 reacted with B.
- E. A-2 reacted with C.
- F. A-2 reacted with B and C.
- G. A-1 and A-2 reacted with B.
- H. A-1 and A-2 reacted with C.
- I. A-1 and A-2 reacted with B and C.

If group II is elected, applicants are further required to elect one of the following subgroups:

Art Unit: 1621

AA. H1 is used.

AB. H2 is used.

AC. H3 is used.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the phenoxyphosphazine compounds used in group I is structurally disparate from that of groups II and III. Additionally the compositions of groups II and III use phenoxyphosphazines of differing scope and utilize different polyimides. The compounds of A –through I or AA-AC are structurally are also structurally disparate. A reference anticipating one group would not necessarily render the others obvious.

Applicants are also further required to elect a single disclosed species, i.e. a single disclosed compound or composition with all reactants and components specified.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
